### **Instructor**

Michael Robinson  
[mrobinsv@gmu.edu](mailto:mrobinsv@gmu.edu)  
Office Hours: Available upon request

### **Description**

This course will familiarize students with mobile devices and technology used by carriers. Students will identify data that can be retrieved from mobile devices, such as cell phones, smart phones, and GPS devices. Recovered and analyzed data will include address books, call logs, text messages, video files, audio files, and Internet history. Students will correlate data with records from Network Service Providers, e.g., call phone service carriers. Students will apply industry best practices to evidence collection and analysis with hands-on exercises using current tools.

### **Learning Objectives**

Upon completing the course, students will be able to:

- Produce a forensic report that includes the steps in the collection, handling, and preservation of digital evidence from mobile devices, such as cell phones.
- Construct a forensic acquisition plan for mobile devices that will account for various scenarios and the limitations of cell phone technology.
- Validate data obtained from the forensic acquisition of mobile devices with current tools.
- Analyze data retrieved from mobile devices with current tools.
- Assess the differences between cellular network architectures and identify their impact on forensic data.
- Analyze data provided from network service providers and cross-reference the results with data obtained from mobile devices.

### **Required Materials**

Students are to bring the following materials to class:

- At least one USB flash drive

The following texts will be used for the class.

Casey, E. (ed.) (2010). *Handbook of Digital Forensics and Investigations*. Elsevier Academic Press. Burlington, MA.

Jansen, W. and Ayers, R. (2007, May). "Guidelines on Cell Phone Forensics: Recommendations of the National Institute of Standards and Technology." Special Publication 800-101. National Institute

of Standards and Technology. Gaithersburg, MD. <http://csrc.nist.gov/publications/nistpubs/800-101/SP800-101.pdf>

Jansen, W. and Delaitre, A. (2009, October). "Mobile Forensic Reference Materials: A Methodology and Reification." National Institute of Standards and Technology Interagency Report (NISTIR) 7617. National Institute of Standards and Technology. Gaithersburg, MD. <http://csrc.nist.gov/publications/nistir/ir7617/nistir-7617.pdf>

Jansen, W., Delaitre, A., and Moenner, L. (2008, January). "Overcoming Impediments to Cell Phone Forensics." National Institute of Standards and Technology. Gaithersburg, MD. [http://csrc.nist.gov/groups/SNS/mobile\\_security/documents/mobile\\_forensics/Impediments-formatted-final-post.pdf](http://csrc.nist.gov/groups/SNS/mobile_security/documents/mobile_forensics/Impediments-formatted-final-post.pdf)

**Graded Material**

Each assignment, quiz, project, and exam will be graded on a 0-100 point scale.

The final average is calculated by the following weights.

Assignments.....	20%
Quizzes.....	20%
Midterm.....	25%
Hands-on Exercises.....	15%
Final Exam.....	20%
 Total.....	 100%

The following criteria will be used for the assignment of letter grades

A	92-100
A-	90-91
B+	87-89
B	83-86
B-	80-82
C	70-79
F	0-69

The course will adhere to the university’s policies on grading.

**Assignment Due Dates**

All assignments are to be submitted by the due dates listed in the syllabus. Work will not be accepted late. Assignments are to be submitted via Blackboard.

## **Class Attendance**

Attendance is mandatory. A number of classes will involve the hands-on use of forensics tools, which will be used in the classroom. In the event that a student cannot attend class due to an emergency or crisis, the student is to contact the instructor as soon as possible.

## **Responsible Use of Computing Policy**

Use of computer equipment, including Internet connections within the classroom will be conducted in accordance with the University's Responsible Use of Computing (RUC) Policy. This applies to all academic and operational departments and offices at all university locations owned or leased. The policies and procedures provided herein apply to all Mason faculty, staff, students, visitors, and contractors.

The university provides and maintains general computing services, including web and Internet resources, and telecommunication technology to support the education, research, and work of its faculty, staff, and students. At the same time, Mason wishes to protect all users' rights to an open exchange of ideas and information. This policy sets forth the responsibilities of each member of the Mason community in preserving the security, confidentiality, availability, and integrity of Mason computing resources. To accomplish these ends, this policy supports investigations of complaints involving Mason computing abuse, including sexual harassment, honor code, federal, state, applicable industry, and local law violations.

University faculty and staff members, as state employees, are subject to the Freedom of Information Act, §2.2-3700, et seq., of the Code of Virginia, and all applicable state and federal rules and regulations. While this policy endeavors to maintain user confidentiality, it cannot create, nor should faculty or staff members presume, any expectation of privacy.

Violations of this policy may result in revocation of access, suspension of accounts, disciplinary action, or prosecution. Evidence of illegal activity will be turned over to the appropriate authorities. It is the responsibility of all users of Mason computing resources to read and follow this policy and all applicable laws and procedures (user sign-on agreement).

For more information regarding the RUC Policy, consult the student handbook.

## **University Policies**

This course will be taught in compliance with George Mason University policies, which can be found online at <http://universitypolicy.gmu.edu/>

## **Important Dates**

Last day to drop with no tuition penalty	September 3
Last day to drop with a 33% tuition penalty	September 18
Last day to drop with a 67% tuition penalty	September 27
Thanksgiving Break	November 27-December 1
Final Exams	December 10-December 18

The full calendar maintained by the University Registrar can be found online at:  
<http://registrar.gmu.edu/calendars/2013fall/>

### **Office of Disability Services**

The Office of Disability Services (ODS) is available to serve all students with disabilities, including those with cognitive (e.g., learning, psychological, and closed head injury), sensory, mobility, and other physical impairments.

The Office of Disability Services serves qualified students with disabilities to ensure equal access to the university's programs and services. A qualified student with a disability is a student with a disability, who meets the academic and technical standards required for admission or participation in the university's educational program and services. As defined in the Americans with Disabilities Act (ADA), and section 504 of the Rehabilitation Act of 1973, a person has a disability if he/she:

- Has a physical or mental impairment which substantially limits one or more major life activities,  
or
- Has a record of such impairment, or
- Is regarded as having such impairment

Students requesting assistance should contact the Office of Disability Services at <http://ods.gmu.edu/>

## Course Outline

The following is the course outline. It is subject to revision.

### Week 1 Introduction to Cell phone forensics

8/30

Reading assignment Casey, E. (2010). "Chapter 10: Mobile Network Investigations." *Handbook of Digital Forensics and Investigations*. pp. 537-542.

Classroom material Introduction.pptx

"The Growth of Mobile: Stats and figures that will shock you!"  
<http://www.youtube.com/watch?v=0aUQLIPdtg8>

### Week 2 Mobile Device Usage and Data Artifacts

9/6

Reading assignment Jansen, W. and Ayers, R. (2007). Guidelines on Cell Phone Forensics. Appendix C. pp. 82-92.

Casey, E. (2010). "Chapter 10: Mobile Network Investigations." *Handbook of Digital Forensics and Investigations*. pp. 529-532.

Classroom material Usage\_and\_Data.pptx

Assignments Assignment #1 – Current Events  
 Due on September 6 by 5:45PM

### Week 3 Carrier Technologies

9/13

Reading assignment Jansen, W. and Ayers, R. (2007). Guidelines on Cell Phone Forensics. Section 2.1. pp. 6-8.

ETSI. "Mobile technologies GSM."  
<http://www.webcitation.org/5yRQjyd8W>

ETSI. "Cellular History."  
<http://www.etsi.org/WebSite/Technologies/Cellularhistory.aspx>

TelecomSpace. "CDMA"  
<http://www.telecomspace.com/cdma.html>

Antipolis, S. (2012, June 1.) "New SIM card format for slimmer, smaller phones." Retrieved from the ETSI website:  
<http://www.etsi.org/news-events/news/398-news-release-1-june-2012>

Classroom material Carriers.pptx

	Assignment	Assignment #2 – Data Contained on Mobile Devices Due on September 13 by 5:45PM
	Quiz	Quiz 1 (Material from weeks 1 and 2)
<b>Week 4</b> 9/20	<b>Network Service Provider Infrastructure</b>	
	Reading assignment	Casey, E. (2010). "Chapter 10: Mobile Network Investigations." <i>Handbook of Digital Forensics and Investigations</i> . pp. 517-526.
	Classroom material	Infrastructure.pptx
	Assignment	Assignment #3 – Carrier Technology Due on September 20 by 5:45PM
<b>Week 5</b> 9/27	<b>Procedures</b>	
	Reading assignment	Jansen, W. and Ayers, R. (2007). Guidelines on Cell Phone Forensics. Sections 3 – 7.2. pp. 13-61.  Ayers, R., Wayne, J., Cilleros, N., and Daniellou, R. (2005). Cell Phone Forensic Tools: An Overview and Analysis. p. 5.
	Classroom material	Procedures.pptx  Cellebrite Demonstration <a href="http://www.youtube.com/watch?v=kET-F_3xuD8">http://www.youtube.com/watch?v=kET-F_3xuD8</a>  SIM Card Seizure Demonstration <a href="http://www.youtube.com/watch?v=fFMPUCrvuo">http://www.youtube.com/watch?v=fFMPUCrvuo</a>  Hands-on demonstrations with phones and tools  Paraben Device Seizure Instructions
	Assignment	Assignment #4 – Infrastructure Due on September 27 by 5:45PM
	Quiz	Quiz 2 (Material from weeks 3 and 4)
<b>Week 6</b> 10/4	<b>Impediments to Cell Phone Forensics</b>	
	Reading assignment	Jansen, W., Delaitre, A., and Moenner, L. (2008). "Overcoming Impediments to Cell Phone Forensics." Proceedings of the 41 <sup>st</sup> Hawaii International Conference on System Sciences. National Institute of Standards and Technology. <a href="http://www.forensicswiki.org/images/9/9c/JensenCellPhones.pdf">http://www.forensicswiki.org/images/9/9c/JensenCellPhones.pdf</a>

	Classroom material	Impediments.pptx
	Assignment	Assignment #5 – Procedures Due on October 4 by 5:45PM
<b>Week 7</b> 10/11	<b>Mid-term</b>	
<b>Week 8</b> 10/18	<b>Comparison and Contrast of Current Industry Toolsets</b>	
	Reading assignment	Ayers, R., Jansen, W., Moenner, L., and Delaitre, A. (2007). Cell Phone Forensic Tools: An Overview and Analysis Update. NISTIR 7387.  Casey, E. (2010). "Chapter 10: Mobile Network Investigations." <i>Handbook of Digital Forensics and Investigations</i> . pp. 410-412.
	Classroom material	Forensic_Tools.pptx  Chip-off_Forensics.pptx  Hands-on Exercises/Acquisitions to be conducted
	Assignment	Assignment #6 –Recommendations Due on October 18 by 5:45PM
<b>Week 9</b> 10/25	<b>Acquisition I</b>	
	Reading assignment	
	Classroom material	UFED_Acquisition.pptx  DS_Acquisition.pptx  BitPim_Acquisition.pptx  Hands-on Exercises/Acquisitions to be conducted
	Assignment	Assignment # 7 – Forensic Tools Recommendations Due on October 25 by 5:45PM
<b>Week 10</b> 11/1	<b>Acquisition II</b>	
	Reading assignment	Jansen, W. and Ayers, R. (2007). Guidelines on Cell Phone Forensics. Section 2.3. pp. 11-12.
	Classroom material	Kindle.pptx

SIM Acquisition.pptx
