Class Meets: Day: Net Asynchronous
Time: N/A
Where: On line

Online Discussions Via Blackboard Collaborate: Approximately once per week and usually occurring on a Saturday, I will hold an online discussion forum via Blackboard Collaborate. This discussion forum is voluntary and student driven. We will discuss the lecture topic for that particular week. **All students participating are required to use a microphone/speaker head set. Texting will not be permitted.** The actual dates and times of these sessions will be emailed to you during that week. These sessions will be recorded.

Course Description: Looks at accounting from a forensic perspective. Financial statement analysis, detection techniques, computer aided investigative processes, fraud detection, money laundering, interviewing, and other topics are covered. The class culminates in a final project where the student will present their findings to the class.

Course Goals: Prepares students to undertake forensic accounting, a specialty practice area of accounting, in such a way that they will develop the necessary expertise, and be prepared to give expert evidence in any resultant trial.

Prerequisites: CFRS 500 and a working knowledge of financial statements and accounting
