

CFRS 660 (aka TCOM 660) Network Forensics Spring 2021

Read this document in its entirety. You are responsible for its contents! Due to Covid-19, this course is being offered in a hybrid format with three lab sections.

Instructor: Bob Osgood

rosgood@gmu.edu

703-993-5443

Engr 3255 Office Hours Thursday 2:00 PM – 5:00 PM

And by appointment

Classes Meet:

Hybrid Section
Day: Saturday
Time Labs: 9:00 AM – 11:45 AM ENGR 4457 1:30 PM - 4:10 PM ENGR 4457
Time Lecture: 9:00 AM – 11:45 AM (online)

For labs, you must attend the session you are registered. Consult Patriot Web for the correct time of your lab.

Course Description: This course deals with the collection, preservation, and analysis of network generated digital evidence such that this evidence can be successfully presented in a court of law (both civil and criminal). The relevant federal laws will be examined as well as private sector applications. The capture/intercept of digital evidence, the collection and analysis of volatile data, and the reporting of such information will be examined.

Course Goals: At the conclusion of this course, the student will have learned the laws applicable to presenting network digital evidence in a court of law. The student will be able to successfully intercept network traffic, collect and analyze volatile data, decipher network traffic, and report this information in a suitable format.

Honor Code: - The Mason Honor Code is in effect <https://oai.gmu.edu/mason-honor-code/>

Student members of the George Mason University community pledge not to cheat, plagiarize, steal, and/or lie in matters related to academic work.

Covid-19: During in-class lab sessions, Covid-19 safety protocols will be in place. Students will need to wear masks.

Mason Calendar: <https://registrar.gmu.edu/calendars/spring-2021/>

First day of class: **Saturday, 1/30/2021**

Midterm: **Saturday, Date 3/20/2021**, Online (This may change)

Final: **Saturday, 5/8/2021**, Online

Prerequisites: TCOM 535 and working knowledge of a computer language and operating systems (Windows & Linux)

Cross Listed: TCOM 660

Course Schedule: (**Subject to Change**)

Week	Topic	Reading Assignments	Projects Due
1 1/30/2021	L-1 Introduction and review of Network Protocols - Application to Network Intercepts	Blackboard (BB) Lecture-1 Networking	
2 2/6/2021	L-2 Tapping an Ethernet Network	BB Lecture-2 Tapping an Ethernet Network	LAB IN-Class
3 2/13/2021	L-3 Federal laws pertaining to the interception of digital evidence will be presented.	BB Lecture 3 – Legal Stuff	
4 2/20/2021	L-4 Live Collection Windows	BB Lecture 4 – Live Collection Windows	Project 1- Due CoB
5 2/27/2021	L-5 Live Collection Unix/Linux	BB Lecture 5 – Live Collection Unix/Linux	
6 3/6/2021	L-6 Building Response Tools – Linux Focus	BB Lecture 6 – Building Response Tools Linux Focus	
7 3/13/2021	L-7 Collecting Network Based Evidence	BB Lecture 7 – Collecting NBE	Project 2 – Due CoB
8 3/20/2021	Midterm – Online - Timed Exam – Open Book & Notes		
9 3/27/2021	L-8 Network Analysis and NetFlow	BB Lecture 8 – Network Analysis ...	LAB IN-CLASS
10 4/3/2021	L-9 Routers/Firewalls	BB Lecture 9 – Router Forensics	LAB IN-CLASS JC G010 Project 3 – Due CoB
11 4/10/2021	L-10-13 Analyzing Network Traffic	BB Lecture 10-13 Analyzing Network Traffic	
12 4/17/2021	L-10-13 Analyzing Network Traffic	BB Lecture 10-13 Analyzing Network Traffic	
13 4/24/2021	L-10-13 Analyzing Network Traffic	BB Lecture 10-13 Analyzing Network Traffic	
	No Spring Break Spring 2021		

14 5/1/2021	L-10-13 Analyzing Network Traffic	BB Lecture 10-13 Analyzing Network Traffic	Project 4 – Due CoB
15 5/8/2021	Final Exam - Online - Timed Exam – Open Book, Notes, and Computer		

Grading:

- Mid-term:** 30% (Open Book, Notes, and Computer). This grade is composed of an exam (~27%) and lab (~3%).
- Final:** 30% (Open Book, Notes, and Computer). This grade is composed of an exam (~25%), 2 labs (~3%), and quiz (~2%).
- 4 Projects:** 40%

Projects:

There will be four projects assigned during the semester. All projects must be typed, Times Roman 12 point, double spaced, with one-inch margins. Each project will have a **maximum** length not including diagrams and bibliography. Each project is worth 10% of the total grade. Project 3 is a BASH script that needs to be physically tuned in on a thumb drive.

Exams:

The format of exams will be a combination of multiple choice, fill-in, and short answer questions. Expect approximately 50 – 70 questions per exam. The exams are comingled with labs meaning you need to complete the labs in order to answer questions on the exams. The Final Exam is not cumulative per se; however, knowledge of the material covered in the first half of the semester is integrated into material covered in the second half of the course. The exams will be timed and be open book, notes, and computer.

Course Material: All course material is available on Mason Blackboard.

How do you get on Blackboard?

- Go to: <https://blackboard.gmu.edu>
- Login with your Mason Credentials
- Click on the Courses tab
- Click on the CFRS-660

How do I get to the online lectures?

- Follow instructions to login into Blackboard
- Click on **Tools**
- Click on **Blackboard Collaborate Ultra**
- You should see the current session listed
- Previously recorded sessions are accessed via the **Previously Recorded Tab**

Thumb Drive (32 GB or higher)

A Thumb Drive card is required for Project 3. This Thumb Drive will be returned to you after Project 3 is graded.

Software That You Will Need (Free Stuff) (place on your external drive and/or laptop)

Software that you should have loaded on your personal computer include

-Wireshark	www.wireshark.org
-Network Miner	sourceforge.net/projects/networkminer/
-Netwitness Investigator	EMC
-SNORT (offline mode only)	www.snort.org
-Arkime/Moloch	https://arkime.com/

These tools are available on Blackboard or if you wish the latest and greatest, you can just Google for the tool. Be careful of weaponize sites. Know who you are downloading from.

VM's – VM of Ubuntu is required and it's always good to have a Kali VM handy

Lab Computers – In class we will be using lab computers. **Please make sure that your computer is working properly prior to the start of class.** If your machine is not working, please let me know and switch to another computer.

Open Computer Lab - The open computer lab is located in Engr 1506. BlackLight, and Truxton as well as other tools are installed on these machines.

Required Reading and Reference Material:

Multiple books and sources are used to create this course. No one book is used exclusively. Of these, two are technically required text, but the Blackboard site is self-contained meaning everything you need for this class can be found within Blackboard.

Required: The Practice of Network Security Monitoring, Richard Bejtlich, No Starch Press, ISBN: 978-1-59327-509-9 (**Bejtlich**)

Required: Wireshark Network Analysis 2nd Ed, Laura Chappell, Chappell University, <https://www.chappell-university.com/books>, ISBN 978-1-893939-94-3 (**Chappell**)

Optional: Network Forensics, Davidoff and Ham, Prentice Hall, ISBN 978-0-13-256471-7

Optional: Mastering Windows Network Forensics and Investigation 2nd Edition; Anson, Bunting, Johnson, and Pearson; Sybex, 2012; ISBN: 978-1-118-16382-5 (**ABJP**)

Optional: Windows Forensic Analysis, Harlan Carvey, Syngress, ISBN #9781597494229

Optional: Real Digital Forensics; Jones, Bejtlich, and Rose; Addison Wesley; ISBN #0321240693 (**JBR**)

Optional: Mastering Windows Network Forensics and Investigation; Anson and Bunting; Sybex; ISBN #9780470097625

Optional: Wireshark & Ethereal Packet Sniffing; Orebaugh, Ramirez, and Beale; Syngress; ISBN #1597490733

Optional: Incident Response & Computer Forensics, Second and Third Editions; Kevin Mandia, Chris Prorise, & Matt Pepe; McGraw Hill; ISBN #007222696X (2nd Ed), #9780071798686 (3rd Ed)

Optional: Web Security; Mike Shema; Osborne; ISBN #0072227842

Optional: Cisco Router and Switch Forensics; Dale Liu; Syngress; ISBN #9781597494182 (**Liu**)

Optional: Practical Malware Analysis; Sikorski and Hinig; No Starch Press; ISBN # 9781593272906

Cert: <http://www.cert.org>

Cisco: <http://www.cisco.com>

Technet: <https://docs.microsoft.com/en-us/>

Sourceforge.net: <http://sourceforge.net>

Python: www.python.org

CCIPS <https://cybercrime.gov>

Microsoft Downloads:

This course uses Microsoft software available at no charge through the Microsoft DreamSpark program. You should have received notification of your access to this program when you first registered for a course in the Volgenau School of Engineering. If you can't find that notification email, please read the DreamSpark FAQ on <http://labs.vse.gmu.edu> for instructions on activating your account or resetting your password.

Visio:

Visio is a Microsoft Office product that you should all be familiar with.

Visio can be purchased @ the Mason Computer Store @ a reduced price, you can use the free Visio viewer (with limited functionality), you can use any of the open Mason computer labs since they all have Visio, Mason Virtual Computing Lab (<http://www.vcl.gmu.edu>) , or you can obtain Visio through **Microsoft Downloads**.

Va. Cyber Range (VaCR)

You will receive an email from the Va CR. Please log in and confirm your account. The VaCR. The VaCR will provide Linux VM's and is available for use during the semester. You will also need an Ubuntu VM that where you can attach a removable device.

VSE Labs:

All software required for this course is installed on computers in the open student lab in ENGR 1506. Lab hours can be found on the Labs web site, <http://labs.vse.gmu.edu> . Please remember to save your work to an external drive as any data stored on those computers will not persist after a reboot. Give the Covid-19 situation we are in, ENGR 1506 will have reduced capacity.

Virtual Computing Lab:

Software for this course has been installed on the Mason Virtual Computing Lab (VCL), run by Mason's ITS. The VCL allows you to run remote sessions through your own computer. You can initiate a VCL session through <http://www.vcl.gmu.edu> and that site also has a link for instructions on its use. Please remember to save

all of your work on a drive separate from the virtual machine as the entire virtual machine disappears after you exit.

Software downloads:

The Volgenau School subscribes to Microsoft's DreamSpark and VMWare's Academic programs which offer free software downloads to our students. All students in VSE eligible courses receive an invitation to each of those programs at the beginning of their first semester in which they are registered for an eligible course. If you can't find that notification email, please read the relevant Student FAQ on <http://labs.vse.gmu.edu> for instructions on activating your account or resetting your password. Microsoft does not make Mac versions of most of its software products. If you have a Mac, you will have to use Boot Camp, VMWare Fusion, or a Virtual Machine product and then install Windows. Make sure that you have allocated enough memory to your VM. Volgenau School students may obtain a renewable one year license for VMWare Fusion through a program sponsored by the Volgenau School. Information on that program is in a FAQ on <http://labs.vse.gmu.edu>. There are also some hints for Mac users on getting Microsoft Windows in the Macintosh Tips FAQ. Other software downloads, including anti-virus software and SSH clients, can be found on the Mason ITS site at Mason VMWare link is below

<https://e5.onthehub.com/WebStore/Security/Signin.aspx?ws=0784610b-cd9b-e011-969d-0030487d8897>

Student Welcome - This link provides up-to-date information on IT services:

<http://labs.vse.gmu.edu/uploads/FacultyFAQ/StudentWelcome.pdf>

<http://itservices.gmu.edu/downloads/index.cfm>.

Microsoft tools may be available for you at:

<https://azureforeducation.microsoft.com/devtools>

Disability Services:

Students with disabilities who seek accommodations in a course must be registered with the Mason Office of Disability Services (ODS) and inform the instructor, in writing, at the beginning of the semester. See <https://ds.gmu.edu/> or call 703-993-2474 to access the ODS.

Note: ALL STUDENTS MUST HAVE GMU CREDENTIALS (EMAIL ACCOUNT) AND HAVE ACCESS TO <https://mymasonportal.gmu.edu> !!

Note: All Email Correspondence Will Take Place From Your GMU Account to rosgood@gmu.edu!!!

Note: All Students Are Responsible for All of the Material in This Course

Projects 1, 2, and 4 will be delivered by you through Blackboard. Project 3 must be physically handed in.

Good Luck and Have a Great Semester!!!

If you start running into problems during the semester, please come and see me. The earlier the better. Do not wait until the week of the final to raise a challenge.
